DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 26, 2006, has been entered.

Response to Amendment

Applicant filed amendments and remarks on October 26, 2006, in response to the office action dated June 2, 2006. In this response, applicant has amended claims 1,4,6,11-12,14-16,18-19,24,29,32,34,39-40,42-44,46-47,52,57,60,62,67-68,70-72, and 74-75. Including claims previously cancelled, applicant has now cancelled claims 3,5,17,31,33,45,59,61, and 73. Claim 85 is new. Claims 1-2,4,6-16,18-30,32,34-44,46-58,60,62-72, and 74-85 are pending and examined in this office action. Applicant's remarks regarding the interview of July 6, 2006, are accurate and are accepted as an interview summary. Examiner has included with this office action an interview summary form PTO-413 with additional information.

Applicant should note discrepancies between the status of the claims as noted in the remarks and the status indicated in the listing of claims. Specifically, claims

Art Unit: 3625

3,17,31,45,59, and 73 have been cancelled and claim 85 is new. The claims pending as noted above are in conformity with the listing of claims.

Response to Arguments

Applicant's arguments with respect to claims 1-2,4,6-16,18-30,32,34-44,46-58,60,62-72, and 74-85 have been considered but are moot in view of the new ground(s) of rejection. It should be noted that applicant argues that the prior art does not disclose, "displaying at the Web site a solicitation for billing information from the customer; and receiving billing information from the customer via the Web site." The prior art displays a solicitation for and receiving of information identifying the customer. Applicant argues that the information is merely contact information rather than billing information. A comparison of the information fields in the reference (see at least V3 p.1) with those in the present application's Figure 11 shows that the fields are virtually identical. The information in the prior art would also ultimately be used for billing purposes. Applicant argues that the two types of information "are not necessarily the same." The continuing discussion regarding whether the information is exactly the same or slightly different makes very clear that the essential nature of the information has no functional bearing on the steps performed in the method. The customer's identifying information, whether it is called contact information or billing information, is descriptive material and is not functionally involved in the recited steps of the method. Because it has no functional role in the method it is non-functional descriptive material. This descriptive material will not distinguish the claimed invention from the prior art in

Art Unit: 3625

terms of patentability, see In re Gulack, 703 F.2d 1381, 1385, 217 USPQ 401, 404 (Fed. Cir. 1983). MPEP 2106).

Examiner cites particular columns and line numbers in the references as applied to the claims below for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the claims, other passages and figures may apply as well. It is respectfully requested that, in preparing responses, the applicant fully consider the references in entirety as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the examiner.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 1. Claims 1-2,4,6-16,18-30,32,34-44,46-58,60,62-72, and 74-85 are rejected under 35 U.S.C. 103(a) as being unpatentable over Superpages (a collection of prior art cited in Paper # 050715, PTO-892, Items U1-X7; See MPEP §2131.01) in view of Lamburt (US Patent No.6,374,241).

Superpages teaches a method for providing a Web site accessible by a customer and receiving an order request from the customer via the Web site to place an order for a customized business listing in a business directory including at least one optional

Art Unit: 3625

listing enhancement requested by the customer (see at least U1 pp.1-2, V3 pp. 1-2, and U6 p.1; Please note: V3 and U6 show that these features are inherent in U1. Please note that throughout this Non-Final Office Action, Items W1-X7, when cited, are used to show the inherency of each element in Items U1 and V1. Items U1 and V1 are versions of the same homepage differing only in the date on which they were recorded. Items W1-X7 are more detailed sub pages accessible through the homepage. V1 is a more complete copy of the homepage, and its early date shows that the functional elements detailed in items W1-X7 were present as of June 28, 2001, however, because not all of the webpages shown as items W1-X7 are dated prior to June 28, 2001, Item U1 is being used to show the total state of the enabled business directory website at least as early as its date, July 20, 2002, the latest date of all the reference materials listed on the form PTO-892 included herewith). Superpages further discloses:

e displaying at the Web site a list of available optional listing enhancements and receiving an enhancement request from the customer via the Web site to include in the listing of the business in the business directory at least one optional listing enhancement from the list of available optional listing enhancements whereby the customer configures a customized business listing (see at least U1 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, U3 p.1, W3 pp.1-4, U4 pp.1-2, W4 pp.1-2); receiving a request from the customer at the Web site to place the order for the listing of a business in a business directory including the at least one optional listing enhancement requested by the customer (see at least U1 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, U3 p.1, W3 pp.1-4, U4 pp.1-2, W4 pp.1-2).

Art Unit: 3625

 the business directory is a classified business directory (see at least U1 pp.1-2, V1 pp.1-2, W1 p.1, and X5 pp.1-2).

Page 6

- displaying to the customer at the Web site a solicitation to enhance the listing with at least one optional listing enhancement, wherein the at least one optional listing enhancement can be purchased with an associated fee (see at least U1 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, U3 p.1, W3 pp.1-4, U4 pp.1-2, W4 pp.1-2); receiving listing information from the customer at the Web site, wherein the listing information includes basic business information (see at least U1 pp.1-2, W3 p.1-4, X3 p.1).
- information including at least one of business market information, business category information and optional listing enhancement information relating to the placement and/or appearance of the listing in the business directory: basic business information including a business name, a business address, and a business telephone number, business market information including a region or market in which the customer wishes the business listing to appear, business category information including at least one business category under which the customer wishes to list the business in the business directory, also providing for at least two categories under which the customer wishes to list the business in the business directory; displaying at the Web site a list of available business categories and subcategories and receiving from the customer at the Web site a selection of a business category and subcategory from the list of available

Art Unit: 3625

business categories and subcategories (see at least U1 pp.1-2, X1 p. 1-2, U2 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, X3 p.1, U3 p.1, W3 pp.1-4, U4 pp.1-2, W4 pp.1-2, X4 pp.1-2, V5 pp.1-6, W6 p.1).

Page 7

- receiving listing information from the customer at the Web site, the listing information including at least one of business market information, business category information and optional listing enhancement information relating to the placement and/or appearance of the listing in the business directory: including optional listing enhancement information that includes graphical and/or textual indicia the customer wishes to appear on the listing in the business directory, the graphical and/or textual indicia including at least one of a customer Web site link, a customer email link, enhanced text, listing highlighting, and a link to a supplemental listing, including a link to an enhanced listing, further including receiving supplemental information from the customer at the Web site that the customer wishes to be displayed when the link to the supplemental listing is accessed by a directory user; and also including receiving enhanced text information from the customer at the Web site that the customer wishes to appear on the listing in the business directory (see at least U1 pp.1-2, U2 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, U3 p.1, W3 pp.1-4, X3 p.1, X4 pp.1-2, V5 pp.1-6).
- displaying at the web site a solicitation for billing information from the customer:
 receiving billing information from the customer at the Web site (see at least U1 pp.1-2, V3 pp. 1-2. Please note: The customer's identifying information, whether

Art Unit: 3625

it is called contact information or billing information, is descriptive material and is not functionally involved in the recited steps of the method. Because it has no functional role in the method it is non-functional descriptive material. This descriptive material will not distinguish the claimed invention from the prior art in terms of patentability, see In re Gulack, 703 F.2d 1381, 1385, 217 USPQ 401, 404 (Fed. Cir. 1983). MPEP 2106).

Page 8

- generating a price quote for the business listing ordered by the customer and displaying the price quote to the customer at the Web site; calculating the price quote based on features requested by the customer to be included in the business listing (see at least U1 pp.1-2, U2 pp.1-2, V2 pp.1-2, U3 p.1, W4 p.1-2).
- displaying a statement of terms and conditions to the customer at the Web site
 and receiving confirmation of acceptance of the terms and conditions from the
 customer at the Web site (see at least U1 pp.1-2, V5 pp.1-6, W5 pp.1-6, X6 pp.1-4, U7 pp.1-6, W7 pp.1-3).
- generating an order confirmation and displaying it to the customer at the Web site (see at least U1 pp.1-2, X3 p.1, Please note: it is an inherent aspect of the "Buy Ads Online" option and the option to see how the listing appears that the order confirmation would then be displayed to the customer, at least in the form of showing the customer's listing).
- the order serving to provide enhancements to an existing business listing in the business directory (see at least U1 pp.1-2, W3 pp.1-4, X3 p.1, V4 pp.1-2, U6 p.1, V7 p.1, X7 p.1).

- business directory is an online business directory (see at least U1 pp.1-2).
- sending the customer an email including information regarding the order for the listing in the business directory (see at least U1 pp.1-2, V3 pp.1-2).

Superpages teaches all the above as noted. Superpages teaches a) providing a business directory, b) soliciting orders for listings in a business directory, c) providing a website accessible by customers, d) displaying listing options and enhancements available to customers for enhancing their business listings, and e) displaying price quotes for customized business listings. Superpages however does not disclose displaying multiple individually selectable optional listing enhancements, soliciting at the website a selection by the customer of one or more of the optional listing enhancements, generating a customized price quote for the customized business listing, and displaying the customized price quote for the customized business listing at the website to the customer. Lamburt teaches a) providing a business directory, b) soliciting orders for listings in a business directory, c) providing a website accessible by customers, d) displaying listing options and enhancements available to customers for enhancing their business listings, and e) displaying price quotes for customized business listings. Lambert further teaches displaying multiple individually selectable optional listing enhancements, soliciting at the website a selection by the customer of one or more of the optional listing enhancements, generating a customized price quote for the customized business listing, and displaying the customized price quote for the customized business listing at the website to the customer (see at least figs.16-22,

Art Unit: 3625

column 10 lines 45-53, column 54 lines 33-53. Please note: The figures indicate that this reference is a US Patent drawn to the same invention previously evidenced by the non-patent literature Superpages or that they are both within the same family of inventions. Lambert however is a more thorough disclosure, showing and describing a greater degree of functionality than is evidenced by the archived webpages available in support of the previously cited Superpages reference.)

Pertaining to system Claims 29-30,32,34-44, and 46-56

Rejection of Claims 29-30,32,34-44, and 46-56 is based on the same rationale as noted above (Please note: the means for accomplishing each step of the method, as disclosed in the Superpages and Lamburt references noted above, is either disclosed or inherent in each specific section of the reference that discloses the step in the method. For example, the means for receiving a request from the customer at the Web site to place the order for the listing of the business in the business directory is disclosed in Superpages (see at least U1 pp.1-2, V3 pp. 1-2, and U6 p.1) in the form of the webpages themselves, while the means for displaying to the customer at the Web site a solicitation to enhance the listing with at least one optional listing enhancement, wherein the at least one optional listing enhancement can be purchased with an associated fee is inherent in the webpages disclosed in Superpages (see at least U1 pp.1-2, V2 pp.1-2, W2 pp.1-2, X2 pp.1-2, U3 p.1, W3 pp.1-4, U4 pp.1-2, W4 pp.1-2) because they must be displayed to the customer in order to achieve their essential function.

Art Unit: 3625

Pertaining to computer program product Claims 57-58,60,62-72, and 74-84

Rejection of Claims 57-58,60,62-72, and 74-84 is based on the same rationale as noted above (Please note: the computer program product and computer readable storage medium having computer readable program code embodied in the medium configured to accomplish each step of the method, as disclosed in the Superpages and Lamburt references noted above, is inherent in each specific section of the reference that discloses the step in the method. For example, the computer program product for receiving an order for a listing of a business in a business directory comprising a computer readable storage medium having computer readable program code embodied in the medium, the computer readable program code comprising computer readable program code configured to provide a Web site accessible by a customer, and computer readable program code configured to receive a request from the customer at the Web site to place the order for the listing of the business in the business directory is inherent in the webpages and method steps disclosed in Superpages (see at least U1 pp.1-2, V3 pp. 1-2, and U6 p.1) because without those elements the webpages could not exist.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adam Levine whose telephone number is 571.272.8122. The examiner can normally be reached on M-F, 8:30-5:00 Eastern.

Art Unit: 3625

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey A. Smith can be reached on 571.272.6763. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
